RE: Proposed Rule on Flavored Malt Beverages TTB Notice No 4

Dear Division Chief:

I would like to encourage your department to adopt the proposed rulemaking currently under consideration for flavored malt beverages. This proposal is fair as it will provide guidance on the manufacturing process and composition of these products. If they are to be marketed as flavored malt beverages, it's only appropriate that these products should be manufactured according to required guidelines that other malt beverages already meet.

Please vote to adopt this proposal and add my name to its list of supporters.
With best wishes, I am

Yours truly,
