VIA FACASIMILE

Dear Sir or Madam:

It is my understanding that there is a compromise proposal being put forth for a flavored malt beverage (FMB) standard. The 51/49 "majority" standard is a reasonable compromise and promotes fairness across the industry. This standard would assist the industry from having to make huge investments in new equipment and continue to maintain the taste of the beverages. The most appealing aspect of this standard is that it preserves competition and ensures that all companies have an opportunity to promote their products.

I would appreciate your adoption of the 51/49 "majority" standard for flavored malt beverages. Thank you for your consideration.

Sincerely,

Leonard C. Greene, 105th District  
State Representative  
Connecticut General Assembly
