Dear Chief, Regulations and Procedures Division:

I am writing in support of the proposed 0.5 percent standard for flavored malt beverages.

The proposed standard is the best way to maintain clear distinctions between beer and liquor and it is the best way to preserve the flavored malt beverage category.

Please don't confuse consumers - they need to know that in malt beverages less than one half of one percent of the product's alcohol by volume comes from a distilled spirit.

Thank you.
