William H. Foster, Chief  
Regulations and Procedures Division  
Alcohol and Tobacco Tax and Trade Bureau  
ATTN: Notice No. 41  
P.O. Box 14412  
Washington, DC 20044-4412

Dear Sir:

I am opposed to Notice No. 41 that would include "standard serving" information or an oversimplified listing of the amount of pure alcohol on labels or advertising. I strongly oppose this proposal to display alcohol content in terms of fluid ounces of pure alcohol per "standard serving." The TTB should recognize there is no such thing as a "standard serving."

I ask you to not support this misleading effort that would be harmful to the public and cause more public confusion.

Sincerely,

A handwritten signature in blue ink that reads "Doug".

Speaker *Pro Tempore*
